Mr. Donald E. Bodeker

Dear Don:

We have reviewed the proposed openings as shown by the accompanying sketch and have arrived at the following recommendations:

1. The platting of the east 1/2 of Gay Street between the north line of Lot 9 and the south line of Lot 13 would be desirable in that it would widen the existing right of way to the desirable width of 50 feet, therefore, it would be our recommendation that this opening be accomplished.

2. Regarding Southview Drive, it would be our recommendation that Southview Drive not be opened for the following reasons:

a. The opening of Southview Drive would establish another 300 feet of street for the city to maintain which would not serve any public purpose.

b. The street name Southview Drive is a duplication of an existing street not being a direct extension.

c. Both Lots 13 & 15 could be laid out to a better advantage if the frontage of those lots was maintained along Gay Street and Smith Street. The reasons for this are that by platting their frontage along Southview Drive the maximum number of lots that could be obtained would be four lots on the south side of Southview and four lots on the north side of Southview. If the frontage was maintained along Smith Street, it would be possible to get six lots out of Lot 13 and six lots out of Lot 15 without establishing any additional street improvements, drainage, utilities, and other factors normally involved with a new street.

For the above reasons it would be our recommendation that the east 25 feet of Ray Street be opened and that the opening of Southview Drive be denied.

Respectfully Submitted,

Mr. Edward Green

Subject: Board Order No. 20-1960 - Opening Southview Drive

Declaratory resolution, drawing, waiver and property ownership list completed and attached.

The Planning Director has recommended that this street not be opened, mainly because a greater number of lots could be obtained by platting them on Smith Street and Gay Street instead of on the proposed street. A field check revealed, however, that the lots on the proposed street already have houses on them, and when the property was transferred a provision was made for a street, but it was never dedicated to the City for such purposes.

I agree with Mr. Jones that a street never should have been proposed here in the first place, but since houses have been built on it, and residents on side streets in this area are dependent upon this street being opened to get water lines to their property, I recommend that it be opened as requested.

Mr. Jones also recommended that, if opened, the street be given a name different than Southview Drive to avoid a duplication. I agree with this and will prepare a new resolution if instructed what street name should be used.

While preparing the waiver for this opening, we discovered there was an error in the descriptions and the correct property owners, as recorded. We have, therefore, acquired the names of all property owners who could possibly be affected, although we are aware that the descriptions are not all correct.

In view of the above facts, I recommend that the waiver be honored and immediate approval be given to this opening, as a public hearing will not be necessary.
